

Appetizer Menu

Funky's Catering is a true custom caterer. Our goal is to understand your vision for your event and to develop a menu and service package to bring your vision to life. We encourage customers to schedule a private tasting at our facility. These meetings allow you to better understand the quality of food we make and it gives us a chance to discuss with you all the details of your event in a comfortable and relaxed atmosphere.

The menus that follow are designed to give you an idea of the types of food we offer. These menus are not meant to include everything we can serve at your event. If you have something in mind that you don't see on our menus, let us know. Our talented and experienced staff is capable of meeting any of your needs.

In addition to the food, Funky's can help you with china, flatware, linens, tables, chairs and any other needs for your event. If we cannot supply these items ourselves, we have relationships with local rental companies and can help you coordinate with them. The food is an important part of your event but all the other details can be just as important. We try to work with every client to be sure that all aspects of the event blend well together.

We strive to design and execute a creative and memorable event for each client. The menus included here are a guide to get started.
